

Production Preparation Form

Congratulations on being a part of the Jesus Jingles Production Cast. Video is best when it captures the unique personality of each individual being filmed. Included in this document are the Forms:

1. **Video Pre-shoot Checklist** - *turn in or mail as soon as your video shoot is scheduled*
2. **Release Form**
3. **Location Form** - *to be signed only if the video shoot is on your property*
4. **Production Cast Complimentary Video Request**

The first order of business for a successful shoot is to schedule a time and location for your shoot. Call 334-794-7171 in order to schedule your shoot. In the event that you are scheduled for an outdoor shoot and the weather conditions are unfavorable, check with your filmmaker to verify your shoot locations.

Please turn in your Video Pre-shoot Checklist *AS SOON AS POSSIBLE* once your video shoot is scheduled. This will give the filmmaker a chance to look over your information and give your child(ren) a chance to meet the filmmaker. Meeting the filmmaker before a video shoot makes child(ren) more comfortable during the live camera production. Also, please attach a recent photo with your pre-shoot checklist

During a video shoot, subjects can be natural. Unlike a photo shoot where children are encouraged to look at the camera and pose a smile, video is a natural flow of human interaction and experience. Sometimes it is hard to ask a mom or dad to stand back and allow a child to act normal, but that is exactly what we need, even if a child isn't portraying all smiles. Jesus Jingles portrays real life - addressing all types of lessons including: patience, sharing, grieving and good health. It's o.k. to let your child just be him/her. Also, remember that the filmmaker you work with will most likely also have children of their own. We understand all the fashionable temperaments that children can display and will work with you to help make this a fun memory for you and your child(ren).

We look forward to working with you and your family. If you have further questions please call!
